

# Preserve the Past for the Future

As the Cemetery grew, from this 1857 map depiction by Benjamin Grove, so did the stories within. Cave Hill Cemetery and the Cave Hill Heritage Foundation are devoted to preserving and building Cave Hill's heritage in perpetuity.

## PRESERVATION

The life of a balanced arboricultural space is essential in Louisville's only certified arboretum. We curate the plant and tree collection and steward the environmental resources found within Cave Hill Cemetery.

## EDUCATION

Honoring lives while celebrating our connections to the world, as it is and was, brings life to our historic grounds.

Across generations and beliefs, through art and nature, Cave Hill Cemetery binds Louisville's people, places, and history in our living landscape. Among winding pathways and the monuments of time, here lies every facet of our community story—from triumph to tragedy. The Cave Hill Heritage Foundation is preserving the past for the future at historic Cave Hill Cemetery.

## RESTORATION

We restore historic memorials and monumental art across Cave Hill Cemetery, ensuring the legacies of those at rest continue to inspire future generations.
